

PowerPipe Port Exit Options

Parts number tries to provide enough information to decipher the port exit design as follows:

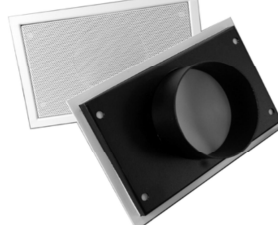

EXAMPLE:

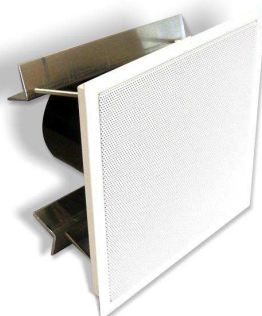

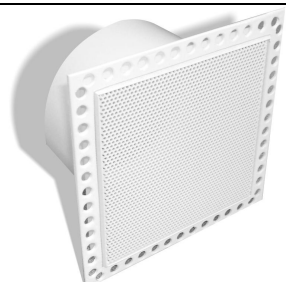

TK4-3X14-2

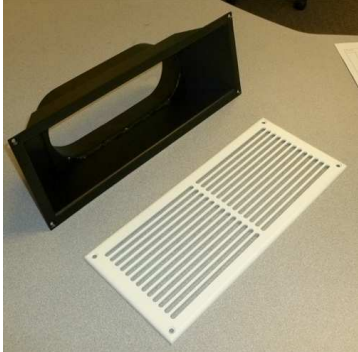

TK = Toe Kick 90 degree,
 4 = the tube diameter in inches. S= straight through tube (angle=0 degrees). X2 means 2 ports,
 3x14 = the nominal toe kick frontal dimensions
 2 = the distance from front of toe kick to the flex tube location – in some case, this sets the wall thickness limit the toe kick can pass through.

Part Number	Description	Photo
	3 INCH TOE KICKS	
TK3S-3X14-6 90 degree	3.5" port size – Straight entry 2.75" x 14.125" frame dimension 2" x 12.625" in-room opening 8.75" clearance from edge of tube – Behind wall mounting	PHOTO TO COME 
	4 INCH TOE KICKS	
TK4-3X14-1 90 degree	4" port size – 90 degree entry 2.75" x 14.125" frame dimension 2" x 12.625" in-room opening 1" clearance from edge to tube - Behind wall mounting	PHOTO TO COME 
TK4-3X14-2 90 degree 1000PT and 1200PT SUPPLIED MODEL	Standard "as supplied" toe kick 1000PT and 1200PT models. 4" port size – 90 degree entry 2.75" x 14.125" frame dimension 2" x 12.625" in-room opening 2" clearance from edge to tube - Behind wall mounting SUPPLIED WITH ALUMINUM GRILLE	
TK4-3x14-4 90 degree	4" port size – 90 degree entry 2.75" x 14.125" frame dimension 2" x 12.625" in-room opening 4" clearance from edge to tube – for full pass through of 6" walls Up to 4" though wall mounting SUPPLIED WITH ALUMINUM GRILLE	PHOTO TO COME

TK4-3X14-6 90 degree	4" port size – 90 degree entry 2.75" x 14.125" frame dimension 2" x 12.625" in-room opening 6" clearance from edge to tube – Up to 6" through wall mounting SUPPLIED WITH ALUMINUM GRILLE	
TK4-3X14-7 90 degree	4" port size – 90 degree entry 2.75" x 14.125" frame dimension 2" x 12.625" in-room opening 7" clearance from edge to tube – Up to 6" through wall mounting SUPPLIED WITH ALUMINUM GRILLE	
TK4-3X14-8 90 degree	4" port size – 90 degree entry 2.75" x 14.125" frame dimension 2" x 12.625" in-room opening 8" clearance from edge to tube – Up to 6"+ through wall mounting SUPPLIED WITH ALUMINUM GRILLE	
TK4S-3X14-6 Straight through	4" port size – straight entry 2.75" x 14.125" frame dimension 2" x 12.625" in-room opening 8.75" clearance from edge to tube – through wall mounting Racetrack tube connection SUPPLIED WITH ALUMINUM GRILLE	
TKAD-4-E Adapter	Adapter from 4" round to racetrack format. For TK4S-3X14-6 to allow for easier flex tube installation.	
TKAD-3x14 Adapter/extension	Adapter/extension for 3"x14" toekicks for in wall plumbing.	PHOTO TO COME 

Part Number	Description	Photo
TK4-4x8-2 90 degree	4" port size – 90 degree entry 4" x 7.5" Frame dimension 3.25" x 5.80" in-room opening dimension 2" clearance from edge to tube Behind wall mounting	
TK4X2-6x14-2 90 degree	Floor vent style – 90 degree entry 2 x 4" port size 6" x 14" approximate in-room opening SUPPLIED WITH ALUMINUM GRILLE	
TK4S-6x14 Straight through	Floor vent style 4" port size – straight entry 5.775" x 13.9" Frame dimension 4.875" x 13" in-room opening 2.5" clearance from edge to tube SUPPLIED WITH ALUMINUM GRILLE	
TK4S-6x14-6A Straight through	Floor vent style 4" port size – straight entry – offset from center 6" x 14" approximate in-room opening SUPPLIED WITH ALUMINUM GRILLE	
TK4S-5x11-2 Straight through	Space saver floor vent style 4" port size – straight entry 5" x 11" Frame dimensions Fits "4x10" floor opening 2.25" clearance from edge to tube SUPPLIED WITH ALUMINUM GRILLE	
TK4S-FX32 Straight through	32FX style (approx. 5.5" x 8.5") 4" port size Straight entry SUPPLIED WITH FX32 STYLE ALUMINUM GRILLE Preconstruction bracket: 32FPB	

Part Number	Description	Photo
TK4S-FX33 Straight through	33FX style (approx. 5.5" x 12") 4" port size Straight entry SUPPLIED WITH FX33 STYLE ALUMINUM GRILLE Preconstruction bracket: 33FPB	
TK4S-FX62 Straight through	62FX style (approx. 10" x 17") 4" port size Straight entry SUPPLIED WITH FX62 STYLE ALUMINUM GRILLE Preconstruction bracket: 62FPB	
CEILING GRILLES (4 INCH TUBE)		
CM-8 Round ceiling mount Straight through	Standard "as supplied" ceiling exit. 4" port size – straight entry 8" outside diameter 2" clearance from edge to tube SUPPLIED WITH STEEL GRILLE Preconstruction bracket: 1000PPB	
CM-8M Round ceiling mount Straight through	Marine version of CM-8 – aluminum grille 4" port size – straight entry 8" outside diameter 2" clearance from edge to tube SUPPLIED WITH ALUMINUM GRILLE Preconstruction bracket: 1000PPB	
CM-8SQ Square ceiling mount Straight through	Square ceiling exit, based on 62CSQ baffle 4" port size – straight entry 8.5"x 8.5" outside dimensions 2" clearance from edge to tube SUPPLIED WITH 62CSQ STYLE ALUMINUM GRILLE Preconstruction bracket: 62CQPB	
CM4SA-SQ-SR SA style power pipe	SA Series ceiling for 4" Powerpipe subwoofers Square sheet rock trim ring to match SA series 4" port size – straight entry 4"x 4" outside dimensions SUPPLIED WITH AN ALUMINUM GRILLE
