

# StingRay

Environmentally Durable Sound

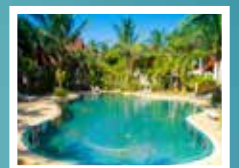

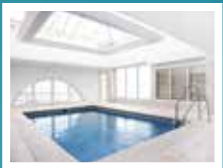

Creating a true environmental speaker that can take on nature's toughest elements is no easy task. Nature is persistent and traditional speakers can break down, corrode and fail over time. Stealth Acoustics has taken on Mother Nature's challenge and created the world's first completely sealed outdoor speaker.

The StingRay™ features an impenetrable glass fiber radiating surface that holds up against even the harshest elements. The sleek rear enclosure is constructed from marine grade UV protected ASA plastic. The StingRay™ speaker is so fully protected that it's even capable of operating underwater.

The StingRay™ can be installed in any marine environment and is the perfect solution for poolside audio. Other applications include: saunas, spas, patios, decks, gardens, sports facilities and ski resorts.

In any situation where Mother Nature would overwhelm a traditional outdoor speaker, the StingRay™ is right at home.

## Product Specifications

### Frequency Response:

35Hz to 20kHz

### Power Capacity:

120 watts RMS

60 watts minimum recommended power

### Protection:

Two independent self-resetting devices (low and high frequency)

### Sensitivity:

83 dB (1 watt / 1 meter)

### Driver Components:

High frequency: 1" (30 mm) neodymium motor

Low-frequency: 1" (25 mm) voice coil, low-profile 8" (203 mm) woofer

Ceramic 20 oz. (622 gr) magnet

### System Impedance:

8Ω nominal

### Polar Dispersion:

170 degrees vertical and horizontal

### Dimensions:

Width: 20-7/8" (530 mm)

Height: 14-3/4" (374 mm)

Mounting Depth: 3-7/8" (98 mm)

### Included Accessories:

Proprietary mounting bracket

### Recommended Applications:

Marine environments

Patio areas

Gardens

Poolside

Spas and Saunas

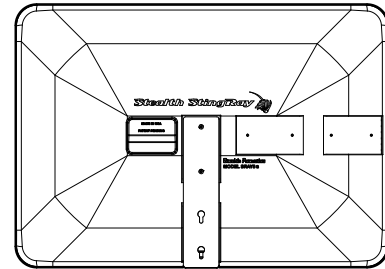

Docks and Decks

### Finish Options:

The StingRay™ outdoor speaker is available in white or black finish but is also custom paintable to match any environment.

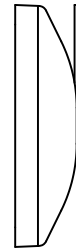

## Mounting Detail

Rear - shown with proprietary mounting bracket

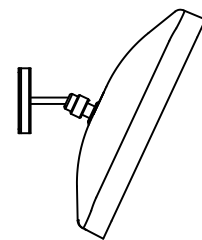

Downward firing wall mount with proprietary bracket

Horizontal firing wall-mount with proprietary bracket

Horizontal firing free-standing with proprietary bracket

Multi-position mounting with optional Omni Mount
